Thanksgiving Proclamation. By the president of the United States. A proc-

In furtherance of the custom of this people apart for that purpose, in special festival of praise to the Giver of all good, I, Chester A. Whittemore a few months ago, evidently Arthur, president of the United States, do hereby designate Thursday, the 29th day of November next, as the day for national thanksciving. The year which is drrwing to an end has been replete with evidences of divine goodness, the prevalence of health, the failness of harvests, the stability of peace and order, the growth of fraternal feelings, the spread of intelligence and learning, and continued enjoyment of civil and religious liberty. All these, and countless other blessings are cause for reverent rejoicing. I do, therefore, recommend that on the day above appointed the people rest from their accustomed labors, and in their several places of worship express their devout gratitude to God that He hath dealt so bountifully with this nation, and pray that His grace and favor may abide with it forever.

CHESTER A. ARTHUR.

By the President: FREDERICK T. FRELINGBUYSKS Secretary of State.

THE RESULTS OF THE ELECTION. The republicans of Massachusetts have won a grand victory in defeating that political hermaphrodite—Benjamin F. Butlor. Last year he was elected by 13,000 majority, securing the vote of all democrats, labor-reformers, and greenbackers. He made himself obnoxious to the better element in his state, because it is well-known that he is a demagogue, possessing at no length of time any substantial and honorable political principles. His highest ambition is to hold office, and he is willing to accept it from any party that will endure his domineering and make him its leader. The people of Massachusetts under-stood this, and by a decided vote they have consigned him to political defeat. The result is commendable governor, four thousand majority. to the spirit of the pride of the old Bay State, for which they receive the applause of the republican party throughout the union. Politically he is dead, and will no longer be a thorn in the flesh to the republican party.

New York probably elects the entire democratic state ticket, with one exception, but the republicans carry the legislature. In Pennsylvania, the democrats have carried both branches of the legislature, but the state ticket has been carried by the republicans, the majorities ranging from 1,000 to 20,000. One of the great battle grounds was

Virginia, in which Senator Mahone, with the majority of the negro vote at his back, was arrayed against the democratic party. His success would have undoubtedly secured the state to the republicans, but his defeat shows that the bourbon element in that state is a power that Mahone can not crush. The reports from other states are given in full in our

He slept soundly for ten days, and no amount of shaking would wake him. Doctors vissted him and pronounced him in a trance, but could not give him relief. The supreme court of the United States has decided a suit against President Arthur, which was begun when he was collector of the port of New York in 1876. An importer and Mr. Arthur disagreed as to the value of certain unwashed wool, the difference between them being about \$300. The importer appealed to the supreme court and after a delay of six years, got judgment. To recover the \$300, it has cost the importer a good many hundred, but then principle is worth fighting for even if it is a costly

She is charged with killing the boy in her own house, and with the assistance of the boy's father, taking the body to the river when part of it was placed to the water. There were such strong evidences of foul play in Mrs. Loug's cellar, that she was arrested, and Mr. Whittmore's conduct, during the search for the body of his little son, indicated that he was carrying about a conscience loaded with guilt. He also was arrested, and it looks now as if fortune will bring to light such evidence as will convict both Whittmore and Mrs. Long, of murder.

THE ELECTIONS.

What the Afternoon Dispatches Say as to the Result?

Special to the Gazette. RICHMOND Va., Nov. 7.—Returns are rery slow and meagre. The catimates at eleven o'clock give a democrat majority in the legislature and joint ballot of fifteen. The democratic candidates carry Mahone's district by ten or fifteen thousand majority. Mahone, while greatly discouraged, will not concede his defeat. His eye is blackened by the face blow re ccived at the polls yesterday.

Epidemic of Typhold.

PORT JARVIS, N. Y., Nov. 7.—There is much anxiety here over an epidemic of typhoid fever. There are now seventy-five cases and more developing daily. Rosron, Nov. 7.-The returns from the state show uniform and large Republican gains and plainly indicate Robinson's election. Chairman Lodge says that the returns more than sustain the canvass of the Republican stato committee, upon which he gave Robinson 18,000 majority. In Boston the Republican gains are larger than anticipated. Butler scarcely holds his own in wards where he is strongest. The city of Worcester shows a Republican gain of at least 800. Robinson carrying the city by from 600 to 800 majority on a large vote. Butler

carried the city last year by 1,350.

Boston, Nov. 7.—Sixty-one towns Massachusetts, including Lyen, Lowell, Fall River, Taunton, Newburyport, and Etch-burg, give Robinson 20,878, Butler. 23,578; majority for Robinson, 3,290. Lowell gives

Butler 1,092 majority against, 1,527 last year, Boston, Nov. 7.—The following is the vota of the cities of the state: Boston, Butler, 32,465; Robinson, 25,954. Republican gain of Springfield-Robinson, 3,227; Butler. 2,859. Republican gain of about 900. Fall River-Butler, 3,507; Robinson, 3,112, Ropublican gain of 600. New Bedford-Robinson, 2,549; Butler, 1,760, Republicau gain. Newburyport—Butler, 1,355; Robinson, 1,046. Republican gain. Taunton—Robinson, 2,083; Butler, 1,836, a Republican Fitchburg — Butler 1,106; Re Robinson, 1,495, a Republican gain. Salem—Robinson 2,230, Butler 2,200, a large Republican gain. Gloucoster—Robinson 1.191. Butler 1,473. Lynn—Robinson 3,334, Butler 4,711. Cambridge—Robinson 3,350, Butler 4,005. A Republican gain of several hundred. Holyoke —Robinson 1,319, Butler 1,511. A Republican gain of several hundred. Worcester—Rob-inson 5,999, Butler 5,148. A Republican gain Somerville-Butler 1,600, of over 1,000. Robinson 2,291, a Republican gain of several hundred.

Boston, Nov. 7.-Two hundred and thirtythree towns and cities, including Boston, complete, give Butler 132,355, and Robinson 184,971. The vote of these towns in 1882 was Butler, 118,219; Bishop, 101,565. This ratio, continued throughout the state, would give Butler a total of 150,000 against Robinson's 160,000, showing a gain for Butler over lasyear's vote of 12 per cent., and a gain for Robinson over Bishop's vote of 33 per cent. BOSTON, Nov. 7.—Two hundred and seven ty-nine towns and cities, including all the

cities, and all but 61 of the towns, give Rob-inson 149,683; Butler, 144,681. The same cities and towns last year gave Butler 128, 778; Bishop, 112,001. If the remaining 61 towns show the same relative gain, the total vote will be Robinson, 160,000; Butler, 151, These figures show a net Republicar gain of 27 per cent., and a net Democratic gain of 15 per cent.

THE LEGISLATURE.

Boston, Nov. 7. — The legislature will stand as follows: Senate, Republicans 22, Democrats 19, a Democratic gain of one House, Republicans 175, Democrats 65, a Republican gain of 18. The Democrats have elected two members of the executive council, a gain of one.

THE INTENSE EXCITEMENT.

BOSTON, Nov. 7.-No words can describe the intensity of the excitement in this city over the election returns. Newspaper row on Washington street from the old south church to Dock square, a distance of a quarter of a mile, has been literally packed since 6 o'clock. All transportation was discontinued and it was impossible to force one's way through the crowd. The Steroptican bulleting of the newspapers were greeted by continuous cheers and hisses, yet there was no dis-order or lawlessness. Fanouil hall wan packed and speeches were made at piecemeal intervals, between cheering, by Lieut. Gov. Ames, Congressman Horr, of Michigan, Orlande Briggs, of New York, and others.
Candidates Robinson and Butler remained at their homes in Chicopee and Lowell, re-

New Arrs, N. J., Nov. 7.—The Republicans conceded complete victory for the Democrats including governor, senate and as-sembly. The majority for Abbott, for governor, is probably from 4,500 to 6,000 over Dixon, Republican. The Democrats probably have one majority in the senate, The following are the best estimates attainable on county majorities for governor: Atlantic county, 500, Republican, Bergan, 500; Burlington, 100 Republican; Camden, 700 Republican: Cape May, 100 Republican; Cumberland, 500 Republican; Essex, 2,200 Republican: Gloucester, 300 Republican; Hudson, 2,500 Domocrat; Hunterdon, 500 Democratic; Mercer, 100 Republican; Middle sex, 800 Democrat; Monmouth, 1,000 Repub lican; Morris, 600 Democrat; Ocean, 100 Democrat: Passaic, 100 Republican; Salem, 100 Republican; Somersot, 1,100 Damocratic; Sussex, 1,100 Democrat; Union, 500 Demoerat: Warron, 1,800 Democrat. Total-Republican, 4,700; Democrat, 9,400. Abbott's majority, 4,700. Maryland.

BALTIMORE, Nov. 7-8 a. m. The returns up to this hour are very incomplete, especially outside the city, but the indications are that McLane, Democrat, has carried the state by about 8,000 majority. In this city the return indicate the election of Airey, fusion, for sheriff over Joyce, by about 1,800. The house of delegates will be Democratic; sonute in doubt.

Mississippi.

New Orleans, Nov. 7.—The Democrats had no opposition in Mississippi except in a few district where Republicans and Democrats combined on a fusion ticket against independent caudicates. The regular Democratic and Fusion ticket has been elected throughout.

Minnesota.

Sr. PAUL, Minn., Nov. 7.-1 a. m .-- One hundred and one towns give Hubbard, Republican, 2,200 majority. Sr. Paul, Minn., Nov. 7.-The precincts

reported in Ramsey county up to midnight show Gov. Hubbard carried the county by between 1,000 and 1,500 majority. This is a Republican gain of 2,500. The general Republican ticket is elected by a small ma-

jority.

Hennepin county gives Hubbard a majority of about 800. This is a Republican loss of nearly 1,000.

Later reports indicate that Hubbard's mujority will be nearly 18,000, while the rest of the Republican ticket, with the exception of Lieut. Gov. Gilman, have about 25,000. Gilman has 20,000. Owing to the fact that many counties and precincts have no telegraphic or railroad communication, it will be some days before the definite result can be known. The total vote in the state is estimated at 110,000.

Nebruska.

OMAHA, Neb., Nov. 7.-The campaign in Nebraska this year was centered upon su-preme judge. While the Republican manpreme judge. While the Republican managers confidently predict the election of M. B. Reese by from 5,000 to 8,000, there is a strong probability that James W. Savago, who received the combined support of the Anti-Monopolists and Democrats is elected by a small majority. The Republican estimates are based on the presumption that a big majority of the Republicans who last year organized the Anti-Monopoly movement have resumed their allegiance Last year the Anti-Monopolists and Demo-cruts elected the state ticket by over 4,000 majority, Garfield carrying the state by over Out of the eleven district judges to be elected, four were supported by all the parties, three are Coalition candidates and four are Republicans. The Republicans have elected three out of the four regents of the university. Returns are coming in very slow. The indication is that the Anti-Monopoly vote is nearly as heavy as last year. This county will give Savage, Coalition candidate for supreme judge, over fifteen hun-dred majority. At the same time, the Republicans carry the local county ticket which

was supported by the Anti-Monopolists. Returns from twenty-six precincts and towns give Reese, Republican, for supreme judge, 1,082 majority. The indications are that he is elected by a small majority. The vote is light.

Republican stato ticket is elected in Ne

braska by fully 8,000 majority.

Dakota Constitutional Election,

YANKTON, D. T., Nov. 7.—This city gives a majority of about 500 for the constitution. Chicago.

CHICAGO, Nov. 7 .- The Democrats elected their four county commissioners in the city by majorities ranging from 2,173 to 4,600, and Henry M. Shepard, their candidate for judge of the superior court, swept the county by a majority of 3,000. The Republicans saved only the Fifth commissioners' district, and their candidate received the handsome majority of about 1,500. This district the Democrats regarded as hopelessly Republican, and they were not disappointed.

The weather was clear and rather cool, but not so much so as to intefere with the ticket poddlers in the pursuit of their avocations, and did not prevent the voters from turning out. The total vote in the city and county aggregates a little over 40,000, which a falling off of about 20,000, as compared with the vote cast by the two great parties one year ago. And yet it would be incorrect to say that the Republicans were the only voter who remained away from the polls. On the vote for state treasurer last year Orendorff, Democrat, received in this county \$5,885 cotes, against \$3,614 for Smith, Republican. votes, against 30,014 for Smith, Republican.
The figures this year show that about 30 per cent of the Republicans abstained from exercising the franchise, while on the Democratic side the absentees number a trifle more, being a shade over 31 per cent. per cent. There was nothing to call out a full vote on either side. It was an off year, and the people at large took very little interest in the conflict.

The complexion of the city board will now stand as follows: Democrats, 11; Republicans, 3; and Independent, 1.

A FEW TIMELY REMARKS!

Years ago we almost continually had traveling stores disposng of accumulated shelf worn stock. Of course we sold goods for "50 Cents on a dollar," and there were plenty of people anxious to secure the bargains?—Not the second time, however Well we accomplished our object, and then established a permanent store in one of the busiest towns of the state, the cash sales of which exceed those of any Clothing Store in Janesville. This outlet enables us to buy goods in such quantities as to command the very lowest prices; to take advantage of any large lot that a dealer may wish to close out at a bargain, and to keep our stock free from unsaleable roods that take up room and interest on money. , Under these circumstances we can, WILL and DO sell goods cheaper than any house in this part of the state; we furnish a much larger assortment from which to make selections and are the only house in Janesville that ever dared to mark goods in plain figures and stick to the price every time, thereby extending a "uniform treatment to all. The time of our salesmen is not spent in 'wrestling' over the price, but in doing their utmost to please customers and money will be returned for any goods misrepresented by them. Our Fall and Winter stock is now ready for your inspection and you are perfectly safe in looking it over without fear of being importuned to buy or make an offer. The prices, in plain figures speak for themselves and we think talk pretty loud. Come and hear them talk. Respectfully, M. C. SMITH & SON, One Price Square Dealing Clothiers.

An Ague-Shaking Mule.

[Philadelphia Fress.] A boat, a few days ago, passed through Lackawaxen, 7a., on the Delaware & Hudson Canal, drawn by two mules, each four years old, one of which is afflicted with mainria. The Captain of the boat said that the animal has regular chills and fever, and exhibits all the symptoms dis--inyed by human beings afflicted with the same disease. The mule has been nearly cured by a diet of quinine. He was first opposed to taking the bitter drug in his oats, and consented to swallow it only after a voluntary fast of five days, when the pangs of Eunger conquered the objections of his sensitive palute. He seemed to un-derstand the purpose of the drug; for whenever he feels the chills coming on he now eats, without winking, the eats covered with the pangent powder. He has been reduced to a mere skeleton, but since taking several doses of quining he is regain-ing flesh and strength. When he had the shakes he seemed dazed by his condition and turned tall to the warm wind, as though a storm were perting him. The tever surprised him equally, and it was with difficulty that he could be kept from plunging into the cool water of the canal when the glow was at its height.

An Intexicated Bridegroom. [Pall-Mall Cazette.]

One knows, or at any rate the poets tell one, that it is a very III-one ned thing for a man to "weep upon his wedding-day;" but what, one may wonder, have the fates in store for a man who is drunk on his wodding day? This was the predicament in which a bridegroom found himself at Stoke Church, Gosport, on Saturday; and as he was quite unable to repeat the required declaration, or, indeed, to make any articulate speech at all, the clergyman on his part refused to the the knot. The bride, however, was not at all juclined to regard the clergyman's refusal as a provideutial escape, but, on the contrary, the couple went to the Registrar's office and asked to be married at once. The young lady's couduct may appear extraordinary, but, perhaps, she is like the bride in the old clerical story, who, on being rebuked by the parson for having twice brought her young man in a drunken state to the altar, replied that he never would come when he was sober.

A Wife's Trouble. For a number of years my wife has been troubled with chronic rheumatism, it being in some portion of her body constantly (except perhaps in the very warmost weather in summer.) Last Christmas she contracted a very severe cold, and a diseased conditiod of the kidneys became manifest, which subjected her to excessive suffering, as the symptoms of gravel became more prominent, her urine being colored, accompanied by a beavy brick-dust sediment.

After trying several remedies without relief. I produced for her a bottle of Hunt's Remedy. which she commenced taking, and before three days had passed she became much better. She continued using the medicine until she had used six bottles, and now feels entirely cured of both rheumatism and kidney complaint. She believes her present excellent health due sole-

ly to the use of Hunt's Remedy.

Gratifying Besults. Under date of May 14th, Mr. E. A. Thomson, the well-known grocer and provision dealer, of 78 Green street, New Haven, Conn., writes as follows: "Several weeks since I was taken very ill: with kidney disorders, and an examination of my urine showed a very discused condition of my kidners, and I had also symptoms of a of my kidners, and I had also symptoms of a discased state of my liver. The passing of my near owns accompanied with severe pairs in the small of my back and loins, followed by a burning sensation, and after baying stood awhile in the vessel, the urine showed a very heavy deposit of a sediment similar to ground brick dust and, in short. I found that I was in such a diseased condition as to require immediate treatment, and as I was analous to obtain the best and most speedy remedy. I looked and inquired oarefully, and became salisfied that Hunt's Remedy was an article of excellent merit, and therefore I concluded to give it a trial, and commenced taking it, and before I had taken one bottle I found such a great improvement that I decided to continue its see and by taking only two bottles the result has and by taking only two bottles the result has been most gratifying in giving me restored boulth been most grantying in giving me restored health.

'I have ordered a supply of Huot's Remedy for my store, and shall boreafter have it for sale, as I consider it an excellent article for discusses of the liver and kidners."

Many wonder why the brute creation excel mankind as a rule when in comes to a question of health. Investigation quickly ascertains the cause. It is because the brute caturally obeys every law of health, while mankind is constantly degenerating owing to excesses of our ancestors and our own individual imprudence. Sudden exposure to extreme climatic influences, gluttony, improper food, alcoholic stimulants, over exertion of mind and body, worriment, anziety, care, etc, all have a marked effect on the human system. Be cured by using Brown's Iron bitters. A remarkable remady for restoring health.

What bousekeeper does not onjoy praise for the excellence of her biscuit and cookery? To secure this uniformly, there is nothing like using DeLand's Luemical Baking Powder.

The writer had the pleasure of spending a week with Mr. and Mrs. Champagne recently and thus had an Champagne recently, and thus had an opportunity of seeing the thriving city in which they live. To a person from Rock county, the country looks new, and the pine stumps that "adorn" the door yards are a novelty that add to that feeling; but when one remembers that only three years ago there was no land cleared there and but few houses, he wonders how it is possible for a city of four thousand people to spring up so rapidly amid such surroundings. There are already many fine dwellings and business places, and there is a regular boom in building. The business men of Merrill are a live set of men, and do business in Chicago sort of style with a rush and push that is astonishing to the conserative "old timers" of this section. Lumber is the industry there and logs and logging is the topic of conversation among all classes. Our "Host" is one of the heavy lumbermen of the city and expects to twenty million feet of logs this winter.

—Prof. N. Wardner Williams has fitted up and occupied an elegant music studio the past week in the second story of the Littlejohn block. He has arranged his affairs so that he now spends half of his time in Whitewater—Sundays, Mondays, Wednesday afternoons and Thursdays. Few young men ever came to Whitewater who have secured so general and deserved popularity, as has Prof. Williams, and we are more than well pleased at all indications which point to his finally coming to regard Whitewater as his home. The interest which he has inspired in music, art and literary affairs, is being generally felt, and it is a matter of great satisfaction that it is to have the benefit

-The executive officers of the city are making efforts to enforce the closing of saloous on Sundays, and we sincerely hope the efforts will prove successful Many of the saloon men are anxious that the law be rigidly enforced, while a few think it a "little smart" if they succeed in cluding arrest. A fine of twentyfive dollars and costs, falls pretty heavy on some of the violators, and added to this the charge of selling to minors, on the same day, will make some of them "scream" right out loud, if they are called to court to answer, which we understand will be the case. Better obey the law as it is, and all will be well.

-Complaints are frequently made that large crowds of idle men and boys are in the habit of congregating on the atreet corners in Monterey, especially on Mineral poison; tint or white; price 25 cents box. at Palmer & Stevens. 23deodwanly Center and Western avenues, to the great

annoyance of ladies and gentlemen passing that way. This conduct on the part of the loafers has become an intolerable nuisance, especially on Sundays and Sunday evenings. Last Sunday the services of Constable Wright were called into requisition to disperse the crowd which had gathered at this point. Many citizens who reside in that section of the city think it would be a benefit to them if the council would appoint a special policeman for service in Monterey, for Sundays at least. They think the business boom in that part of the city this season, has so increased the population, that they should have the service of an officer to hold in check the crowd of loafers who naturally congregate on the corners of our public thoroughfares.

-Among the visitors in the city to day was a somewhat striking character, Tong Sing, one of the agents for the Ferguson comedy comyany. He is a Chinaman by birth, assumes the attire of a dude as an advertisement, and of course attracts attention. But Tong Sing will go down in history when all the people that now hvo in Janesville will be forgotten. He is one of the survivors of the ill-fated Jeannette, of which he was steward; but not only that, he is mentioned many times in the history of that tragic expedition as being wonderfully courageous all through the trying months of the voyage, and in the midst of storm and ico and snow and starvation, he, with Ab Sam, did his duty to perfection. When the Jeannette was abandoned, he took the whaleboat with Danenhower and Melville, and fortunately returned to home and civilization. It Tong Sing was a Yankee he would make a fortune out of his heroic struggles in the Arctic region and the reputation he has already gained-But the indications are that he does not care for fame and money, and has therefore attached himself to a comedy com-

-He took a position in the alley-way north of the east side engine house during the rain storm on Monday afternoon and commenced to unfold his troubles to a boot-black. He said his father had old man said he was drunk, and now he music hall. The Philadelphia Evening fired him away from home because the proposed to get even with his sire by jumping into the cold river—he did not propose to drown himself—but he would jump in, and then go home—and he knew that the old man would not deny him the privilege of drying his clothes by the side of the family fire. He started for the river, but the boot-black caught hold of him, and told him the water was too cold; that his clothes were already sufficiently wet to dampen the old man's heart. and that if the water dodge would work at all he had better go home at once and try 11. He started, but he imagined that a glass or two of old rye would help him along, and so he visited a saloon. One glass was not enough, and so he took several, until he went"clear over the bay,', and late in the evening, cold and wet Officer McGinley found him, not at the fire side of his home, but in a helpless condition in the street gutter, unable to help himself. He was taken to the county jail for the night, and yesterday afternoon he might have been seen in the police court, pleading for the privilege of going home, giving his word that he would not again touch the cup which had made such a fool of him. The court took pity on him, held his case open, and allowed him to go on probation for a few in a broad smile all the time this tightweeks, to see if the young man, who is well known, would muster up courage and keep his promise. We withhold his name until the next time he appears in

The Courts. The November term of the Rock county circuit court opened in this city this morning, with Hon. John R. Bennett presiding judge. The forenoon was occupied in calling the calendar and assigning cases for trial. This afternoon, the court called the roll of jurors for the purpose of hearing from those who desired to be excused. Fourteen of the thirtysix jurors were excused for various rea-

The plaintiff seeks to recover for the loss of property destroyed by a cyclone, the property being insured against damages by fire and lightning by the defendant; Messrs. C. Sparsely and P. H. The Dude.

On Saturday evening, of this week, our citizens will have the pleasure of witnessing Mr. W. J. Forguson in his inimitable representation of the Dude, in the play entitled i"A Friendly Tip" at Lappin's

Butletin, in speaking of Ferguson says: There were any number of dudes at the Chesnut street theater last night, and they laughed immoderately at Mr. W. J. Ferguson's representation of a "dude on his uppers" in a play entitled A Friendly Tip. They laughed because the buriesque was so broad as to be unrecognizable. que was so prosu as to de unrecognizable. There was no reason why they should feel insulted or aggrieved. The character, as Mr. Ferguson pictures it, does not touch on one of their weaknesses, save as to the matter of dress, and in this it follows them, so clearly that they admire lows them so closely that they admire the fidelity of the copy rather than grow angry or feel pained that he is attempting to ridicule their peculiar attire. He does not attempt to make of the dude the languid, light-brained, lazy, insipid creature that this type of our modern society growth really is. On the other hand, he conceives the chaarcter as a lively, ratling, unscrupulous, hypocritical, fortune hunting, credit-getting, beer-drinking young vagabond, who is lost to all sense of shame and is possessed of an unlimited supply of cheek. As may be imagined, there is in such a conception ample opportunity for a bright, breezy performance of a farcical kind, and of this Mr. Ferguson takes full advantage. He succeeds in getting out of the part a good deal of fun, and occasionally makes a point which calls forth shouts of laughter of the most uncontrollable kind. the dade as played is exceedingly funny there is no room to deny." It is intense ly ridiculous, and the audience is kept trousered, short-coated and big-batted

creature is on the stage. Why Dr. Price's Gream Baking Powdea is superior to all others, is because the testimony in its favor is the strongest, most intelligent and most competent. The million house-keepers who use it are a community, a nation expressing a preference. They know that in the kitchen in actual use, they find it superior to all others.

The New York World of Sunday, September 23d, alludes to the benefits flowing to the management, and intimates that Colonel Gresham, the postmaster general, seems to be widely spreading the information that no one can assail the integrity of the Louisiana State Lottery, and the only thing to do is to communicate prior to November 13th (next drawing day, the 162d) with M. WEEPING MR. MOSES.

The Husband of the "Fat Girl" Sells Her Corpse.

He Thinks He May as. Well Profit as the Resurrectionists ... Dastardly Ontrage On a Wisconsin Woman.

BALTIMORE, Nov. 7.-David Moses, the

husband of the Bowery fat bride who died here about ten days ago, has sold her body to Dr. Alexander Hill, of this city. The body will be disinterred in a few days. Immediately and the city of the body will be disinterred in a few days. atoly after the funeral ceromonies at Mt. Olivet cemetery the weeping Mr. Moses, who seemed overcome with grief, went to Dr. Hill's office. Ae told the doctor who ha was, and added: "I want to sell my wife's body. It may be stolen, anyhow." tor told him he would give him \$100. Moses snapped at the offer, and the bargain was at once concluded. Dr. Hill wants the body for dissection, and more especially for the skeleton, which he will have articulated and placed in his office.

Moses, who went to New York immediately after the funeral, will be here in a few days and be present at the disinterment of his bride of a month, who in death as well as in life is a source of profit to him. When taken up the body will be removed to a private apartment in one of the medical colleges, where it will be dissected. surprise is expressed by Dr. Hill at the transaction being made public. At the time the crime was committed Mrs. Wacker was alone in the ho her hisband being absent at the house. neighbor's about a quarter of mile away. The first he knew anything wrong was hearing his wife's screams. He and the neighbors rushed out and found she had succeeded in traversing the distance between the two houses, though apparently in a dying condition. Her story as told in a few words, was to the effect that soon after her husband had gone two young fellows came suddenly into the house, locked the door, blew out the light, and then seizing her violently outraged her person several times. Having satisfied their brutal lust, they fied from the house, leaving their victim. She then manuged to drag herself to the place where she was found. The husband and a man working for the neighbor took guns on learning the facts, and scoured the woods through which the two flends had been seen to run by a child. Failing to find them, they came to the city and reported the matter to the police. Suspicion points to two men who had been drinking and carousing in the neighborhood for several days. There is much excitement in the vicinity, and if the right parties are caught it will go hard with them. Mrs. Wacker is 32 years of age, and has no children.
